

Pandomo at the Tiles & Stone Expo 2008

For the first time in Australia

Pandomo was officially introduced for the first time in Australia during the Tiles & Stone Expo Sydney 2008.

Thanks to Ardex Australia people got the opportunity to meet the Artisans and ask them questions about the product. There were panels displaying Pandomo floor and Pandomo wall samples as well as a LCD screen showing the installation process.

There were also samples and brochures packed in our exclusive enviro-bags that were handed to our visitors.

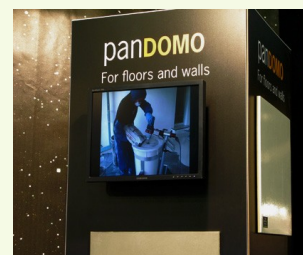

Concrete Artisans Pty Ltd would like to thanks to Ardex Australia, their excellent team of representatives and also to all the valuable visitors of this web site that went to the Tiles & Stone Expo specially to meet Artisans.
