ARTISANS

panDOMO floor®

Pandomo floor is the canvas where you develop your work of art: for all interior floor areas – homes, apartments, shops, foyers, offices, conference rooms, restaurants, reception areas.

You can enjoy the large stone floor area feeling without the need of unsightly grout lines!

With its minimum thickness of only 5 mm, PANDOMO copes with permanent loads and its homogeneous colour won't fade.

It's time to have the unique floor you've always wanted:

- the right colour for you
- unique design
- natural look
- durable
- environmentally safe installation
